

**THANK
YOU**

**FOR YOUR
CONTRIBUTIONS**

**TOWARD RESTORING THE RIVERS
OF THE DESCHUTES BASIN**

**DESCHUTES RIVER
CONSERVANCY**

Through our partnerships, we are restoring significant flows to rivers and streams in the Deschutes Basin.

Whychus Creek is flowing year-round. This reach went from a dry creek bed in late summer to becoming a revitalized year-round stream and a jewel of the community of Sisters. Today the creek provides habitat for migrating salmon and steelhead as well as opportunities for local students to interactively learn about stream ecology and art. **We're also making progress in the Deschutes River, Crooked River, Tumalo Creek and more!**

With gratitude, we thank you for your continued contributions to the Deschutes River Conservancy and for valuing the long-term wellbeing of the natural world within our reach.

DONATE TODAY: deschutesriver.org/how-to-help/donate

DESCHUTESRIVER.ORG

The DRC + partners have restored

**112 MILLION GALLONS
OF WATER PER DAY**

**8.5 OLYMPIC-SIZED
SWIMMING POOLS OF WATER**

protected in our rivers and
streams each day!
